

## Dear Sir, Dear Madam

We greet you from Tábor again. In this issue of Brisk News, we would like to invite you to several international exhibitions in which Brisk successfully participated in this year. The first half of 2016 is over. This was a good time for our company and a great deal of thanks for it go to you. Therefore we wish to thank your very much for the good co-operation so far. BRISK Tábor wishes a beautiful summer and pleasant holiday to all its business partners.

- BRISK Tábor, joint-stock company, has created and maintains company's official Facebook at:

<https://www.facebook.com/BRISKTabor1>

It is another on-line communication channel of BRISK Tábor and we will be happy if you use this option for active on-line contacts with us. This will be of benefit for our business if you convey information on the existence of BRISK's

Facebook. Currently, Facebook belongs to the most advanced and quickest means of on-line communication, so let us use this option widely and actively for the benefit and further growth of our mutual business. We are looking forward to seeing you and also your customers at our Face book soon.

Best regards from BRISK Facebook Team

Ing. Filip Čapka, BSc,  
Member of the Board

- We invite you to coming and very popular international exhibition, MIMS in Moscow 22.-25. August 2016

and AUTOMECHANIKA in Frankfurt am Main 13.-17. September 2016

In the last issue, we have introduced some new spark plugs in our assortment: **P21**, **P22** (designed for VW **TSi** and **TFSi** engines) and **P23**, **P24** and **P25** (particularly for Mazda3). These products have been added to our Brisk Premium spark plug range.

Most of you have already ordered and are sold new, unique BRISK **Premium EVO** spark plugs in 6 basic types as well as 3 types for turbo-charged engines. **Premium EVO** spark plugs have soon become very popular among the customers in the world market, particularly in USA, Germany, Czech Republic, Russia, Australia and Malaysia, but also in some African countries. Currently, the R&D team of Brisk is developing other types of **Premium EVO** spark plugs (M12 type). We believe that our business partners will reap success with **Premium EVO** spark plugs in their markets.

## GAS SHOW WARSZAW 2016

The **seventh International GasShow and Autoservice Expo 2016** took place in the Expo XXI Centre in Warsaw on 8 - 9 April 2016. This is one of the greatest exposition events showing alternative gas-driven engines (their applications, components, filling stations and other products associated with this market segment). Cars, busses and other transport vehicles with LPG, CNG and LNG engines were on display.

Brisk Tábor, joint-stock company, actively participated in this exhibition. In addition to the entire spark plug range, we also

presented associated products, such as spark electrodes and probes for boilers and gas ovens. The main focus was on Brisk Silver, unique spark plugs especially developed for gas-fuelled engines, and also Premium Iridium Plus spark plugs, intended for alternative LPG/CNG fuel types.

### AUTOMECHANIKA BIRMINGHAM 2016

The first Automechanika Birmingham exhibition took place on 7 - 9 June 2016, under participation of 550 exhibitors from 30 countries.

BRISK Tábor, joint-stock company, was also among the exhibitors, displaying its products in co-operation with our long-year partner in this territory, Autohaus Components Ltd. There was a great interest in the new, unique Brisk Premium EVO also overseas.

### AUTOMECHANIKA DUBAI 2016

The fifteenth Automechanika Dubai took place on 7 - 9 May 2016. 20 187 exhibitors from 58 countries participated at this exhibition that attracted 30 018 attendee from 119 countries.

Brisk Tábor, joint-stock company, displayed its products together with its long-year partner, **SMS Bearings FZCO**, located directly in Dubai. Our stand captured well-deserved attention not only by its attractive and fresh design, but primarily by port folio of displayed product. The highlight was, above all, our new **Premium EVO** spark plug range featuring

specific design based on our long-year development experience. It is original and unique in the world of spark plugs. Great interest in BRISK's exhibition stand confirmed very good standing of the BRISK trade mark in the Middle East markets and also growing interest from African countries.
