

Following on the successful last year's racing season, we are continuing the cooperation with racing teams in 2017. Therefore, BRISK spark plugs will appear in various motor sport disciplines again. In this way, Brisk is checking reliability of its products in the most difficult possible conditions. We thank all cooperating teams for promotion of the BRISK brand in the Czech Republic and abroad.

### SUPERMOTO - Pavel Kejmar

BRISK's cooperation with Pavel Kejmar, Supermoto KTM 250 racer, in the last year confirmed quality of BRISK Premium **COR10LGS** spark plugs again. In 2017, Pavel Kejmar has become member of the Degasoline MOTORSPORT Team and will ride TM Fi 450 motorbike, with **AOR10LGS** spark plugs installed. We congratulate him on his success and believe racing season 2017 will be at least as successful for him as the preceding one.

### Super Bikes Malaysia 2017 - Promising start of the year

BRISK Silver Racing spark plugs helped Steve Sim, Motor Sim Racing Team, to his podium place in his first superbike competition at Malaysia Superbike Championship (MSBK) 18 - 19 March 2017. Our congratulations for Steve, Motor Sim Racing Team and also the Malaysian distributor of our spark plugs. We wish them the best results with our spark plugs.

### We support new young talents

Samuel Saidel

This year we have started a cooperation with a young rider Samuel Saidel, who will compete in the European motorcycle Championship. He will also take part in the Czech Republic Cross Country Championship and the Czech Racing International Championship. We wish him good luck in his first season this year and we wish him the best placement also with the aid of our spark plugs.

### Supporting technical education of students

Being a progressive company, BRISK always thinks of the future and supports young generation, and particularly talented students in technical branches of education. Now, we also cooperate with the Czech Agriculture University and its CULS Prague Formula Racing Team in testing **AR10S**, **AOR10LGS** spark plugs and also with the West Bohemian University in Pilsen and its UWB Formula Student Racing Team Pilsen in testing **AR08GS** spark plugs. The exceptionality of this project consists in its concept: both teams must not only seek required financial resources, but also design and manufacture their racing single seaters in compliance with FSAE rules and test them at prestigious international racing events. Much success in designing and racing activities.

### Motocross Šumperk

Following on long-time cooperation with Moto Enduro Šumperk, racing season 2017 has come, with introduction of **L10S**, **L11S** and **L12S** spark plugs. In the past years, our cooperation resulted in achieving excellent results, thus confirming outstanding quality of our spark plugs. Our thanks go to Mr Coufal for excellent cooperation and we wish good luck and much success in the time till the end of 2017 to the entire team, on behalf of BRISK Tábor a.s.
