

## SUPPLIER FOR SERIAL PRODUCTION

After several years of cooperation with the racing factory teams of KTM, GASGAS and Husqvarna, BRISK has started to supply spark plugs for the serial production of SX, MC and TC models with a displacement of 50 and 65 ccm of the 2024 model series. These new types of spark plugs are the result of joint development and testing with KTM. The goal was to develop such spark plugs that guarantee reliable ignition of the mixture in the entire power mode of the engine. The new generation of motorcycles offers a number of technical improvements to maximize performance and reliability with a focus on racing.

Model	Standard use	Powerparts
<b>KTM</b>		
50 SX	2024 A40039093010 AR10C-OE (2156)	A40039993010 AR10IR-OE (2159)
50 SX Factory Edition	2024	A40039993010 AR10IR-OE (2159)
65 SX	2024 A40039093012 AR12C-OE (2157)	
<b>HUSQVARNA</b>		
TC 50	2024 A40039093010 AR10C-OE (2156)	A40039993010 AR10IR-OE (2159)
TC 65	2024 A40039093012 AR12C-OE (2157)	
<b>GASGAS</b>		
MC 50	2024 A40039093010 AR10C-OE (2156)	A40039993010 AR10IR-OE (2159)
MC 65	2024 A40039093012 AR12C-OE (2157)	

Products will be available in stock from March 2024
